National Association of State Student Grant & Aid Programs

About NASSGAP and this Report

The National Association of State Student Grant and Aid Programs (NASSGAP) is dedicated to the promotion, strengthening, encouragement, and enhancement of high standards in the administration and operation of student grant and aid programs, in order that these programs be available to students in all states to expand and further their postsecondary educational opportunities.

NASSGAP serves as a forum for the development and exchange of information, ideas, policy positions, procedures, and needs for student financial assistance for the benefit of member agencies and other organizations. NASSGAP also acts as a collective voice of reasoned opinion before state, regional, and national councils with respect to student financial aid programs.

NASSGAP conducts research, publishes reports, holds conferences, and otherwise engages in activities which help existing student aid programs to become more responsive to federal, regional, and state public policy goals and objectives.

Each year, NASSGAP completes a survey regarding state-funded expenditures for postsecondary student financial aid. This report, the 56th annual survey, represents data from academic year 2024-25. Please note row and column data in the tables may not add to row and column table totals throughout the report due to rounding.

Comments, suggestions, or questions concerning this report may be directed to NASSGAP at survey@nassgapsurvey.com.

Electronic Resources

NASSGAP's Web site is www.nassgap.org. The site has many elements of interest to student aid policymakers and researchers including links to state aid agency web sites.

NASSGAP operates a second Web site at www.nassgapsurvey.com which houses electronic copies of this report, and reports from several previous years, available in PDF format and downloadable free of charge.

An online query tool that will allow for customized queries of survey data is available at: www.nassgapsurvey.com/customquery/CQB01listqueries.aspx

A State Data Quick Check tool which shows expenditures by programs for a selected year is available at: www.nassgapsurvey.com/survey/state_data_check.asp

A Program Finder Tool which lists programs by user selected criteria is available at: www.nassgapsurvey.com/survey/program_finder/program_finder.asp

Executive Summary

This report provides data regarding state-funded expenditures for student financial aid and illustrates the extent of efforts made by the states to assist postsecondary students. Information in this report is based on academic year 2024-25 data from the 56th Annual NASSGAP survey.

Data Highlights

- In the 2024-25 academic year, the states awarded almost \$20.7 billion in total state funded student financial aid, an increase of about 11.3 percent in nominal terms and a increase of about 8.1 percent in constant dollar terms from the \$18.6 billion in aid awarded in 2023-24.
- The majority of state aid (87 percent) remains in the form of grants. In 2024-25, about 5.3 million grant awards were made representing about \$18.1 billion in need and nonneed-based grant aid. This represents an increase of about 12 percent from the \$16.1 billion in grants awarded in 2023-24. Of the grant money awarded in 2024-25, about 75 percent was need-based and about 25 percent was nonneed-based, a breakout consistent with historical data.
- Funding for undergraduate need-based grant aid increased nationwide from \$11.7 billion in 2023-24 to about \$13.4 billion in 2024-25, a change of about 14.5 percent in nominal terms.
- Eight states (California, Texas, Virginia, New York, Illinois, New Jersey, Washington, and Pennsylvania) collectively awarded about \$8.9 billion in undergraduate need-based grant aid, accounting for about 66.4 percent of all aid of this type.
- States provided about \$2.6 billion in nongrant student aid, including loans, loan assumptions, conditional grants, work-study, and tuition waivers. Tuition waivers represented about 46 percent of nongrant aid.

Twenty-six states identified undergraduate programs which made awards based only on merit. Exclusively need-based aid constituted 47 percent of all aid to undergraduates, exclusively merit-based aid accounted for 16 percent, with the rest, 37 percent, accounted for by other programs and by programs with both need and merit components.

New Mexico, Virginia, Georgia, Kentucky, and West Virginia provided the greatest amount of grant aid on a per capita basis. New Mexico, Georgia, Washington, Virginia, and South Carolina provided the most undergraduate grant dollars compared to undergraduate full time equivalent enrollment. Excluding Washington D.C., Kentucky, Virginia, South Carolina, West Virginia, and Louisiana had the highest proportion of total expenditures for state-funded grants compared to State fiscal support for higher education.

The figures in this survey should not include any Federal stimulus funds.
